EVENT DETAILS
Who should attend: students, research enthusiasts, faculty and collaborators.
Venue: UC Ballroom, 301 University Center, UMBC.
Time and date: April 27, 2018 9:00am - 5:00pm.

ACM - IEEE Research Symposium on Computer and Electrical Systems - 2018

An opportunity to inspire peers by exhibiting cutting-edge ideas and achievements through presentations, posters and demonstrations. It will bring students, faculty, and collaborators from the departments of Computer Science, Computer Engineering and Electrical Engineering together to unveil their creations and ideas.

EVENTS
- Research talks on -
  Signal Processing and VLSI
  Quantum Computing
  Artificial Intelligence
  Cyber Defence
- Posters and Demos on -
  Artificial Intelligence
  Embedded Systems
  Mobile Computing
  Robotics
  Signal Processing
  Cyber Security
- Elevator pitch Competition

AWARDS & CASH PRIZES
- Best Female research student
- Best PhD research project
- Best Masters research project
- Best Undergraduate research project
- Best Elevator pitch
- Best Poster design
